Subject: Deficient Notices of Intention to Commence Small Mining Operations, Gold Queen/Million Dollar Gulch and Crescent Creek/May Day Mill, S/017/0035 and S/017/0043, Garfield County, Utah

Dear Mr. Heugly:

The Division of Oil, Gas and Mining has reviewed the referenced amended Notices of Intention to Commence Small Mining Operations (NOIs), that were received by e mail on January 13, 2012. The information on the forms is complete and will be used to update the contact information.

You still need to submit maps for the projects. The maps that the Division has on file do not meet the current requirements. The Division needs a general location map. A USGS 7.5 minute quadrangle map with the mine site shown will meet that requirement. The purpose of the map is to show how to access the site from a paved road or other known location.

The second map is an operations map. This map should be at a scale of one inch equals 200 feet. The map should show the permit boundaries, location of existing or proposed disturbances such as roads or mine workings, and any adjacent previously disturbed areas for which you are not responsible for reclaiming.

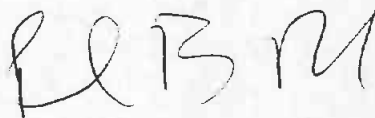

Please provide your response as replacement pages to your original NOI, using Form MR-REV-SMO/EXP, available on the Division's web site at www.ogm.utah.gov
